-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Election/Restrictions*

1. Applicant's election of invention I, claims 1-17 in the reply filed on 5/5/2005 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).
  2. Claim 18 is withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 5/5/2005.
- 

### *Information Disclosure Statement*

3. The information disclosure statement (IDS) submitted on 11/21/2003 has been considered.

### *Claim Rejections - 35 USC § 112*

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:  

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
5. Claims 1-17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

6. Regarding claims 1-17, the phrase "or the like" renders the claim(s) indefinite because the claim(s) include(s) elements not actually disclosed (those encompassed by "or the like"), thereby rendering the scope of the claim(s) unascertainable. See MPEP § 2173.05(d).

Regarding claim 1, the term "consisting" is confusing since the term "consisting" is a closed-end recitation and because in figure 8, the floating axle has more than a limit stop device. Thus the recitations should be changed.

Regarding claim 1, the phrase "where four-wheel vehicles" is not clear, because no vehicle has been claimed.

Regarding claim 1, the phrase "floating axle" is unclear, what is floating axle.

Regarding claim 1, the phrase "downward direction" is unclear, which part of car the axle relative to and from what part.

#### ***Allowable Subject Matter***

7. Claims 1-17 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

8. The following is an examiner's statement of reasons for allowance.

The prior art does not teach the all-terrain welding equipment cart as recited in claim 1, which includes a front independent suspension system having a limit stop device to prevent the axle from excess in a downward direction and which is independently supported by springs, wherein the welding cart has a gas bottle holding frame and a platform to support a welding machine. (Suggest adding more structure from pages 11-

12 of specification, figure 8 to claim 1 to define the floating axle) This recitation, in combination with the rest of the recited elements, clearly defines over the prior art.

### **Conclusion**

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Carpenter et al. disclose a stock cart, Virgulti discloses a compact portable repair cart.
